

ROOSEVELT WILL DEPART MARCH 13

Plans for the President's Hunting Trip in Dark Continent.

HAS PERMIT FROM ENGLAND

Fifty Native Guides Will Conduct Party Through Central Africa.

NEW YORK, Nov. 6.—From an excellent authority it has been learned that President Roosevelt plans to leave New York on March 13, nine days after the inauguration, by the North German Lloyd liner Koenig Albert, for Naples, via Gibraltar, where the liner is due on March 25. Besides his son Kermit, he will be accompanied by a professor from the Smithsonian Institution, and an official from the Navy Department. They have not yet been chosen, but several are under consideration.

From Naples, President Roosevelt and his party will travel on one of the German East African steamers to Mambassa, via the Suez Canal and Aden, a sea journey of seventeen days including stops.

So far no arrangements have been made for the six months the party will spend in Uganda province, between the coast and Port Florence, a distance of 584 miles. On Lake Victoria Nyanza the party will embark for Entebbe, in Central Africa. One thing certain is that Mr. Roosevelt will not enter the Congo territory.

Invitation From Mr. McMillan.

President Roosevelt has received an invitation from Mr. McMillan, nephew of the late Senator James McMillan of Detroit, who owns fifty thousand acres of forest mountain and jungle in the Nairobi district of Uganda, to shoot over his estates and use the comfortable shooting boxes that have been erected in various sections where big game is to be found.

The President is scheduled to arrive at Entebbe early in December, where his native porters, hunters and guides will be waiting to conduct him through Central Africa, exploring some of the tributaries of the Nile and eventually landing him at Gondokoro, the frontier post of the Sudan, some time toward the end of April, 1910. The number of natives to be employed on that part of the journey has not yet been settled, but it is estimated that somewhere around fifty will be needed. Each man will carry on an average a load of fifty pounds on his head.

From Entebbe the distance to be covered on foot and by boat on the rivers and lakes to Khartoum, where it is expected that Mrs. Roosevelt will probably join the party, will be about 3000 miles. The journey from Gondokoro by steamer will take eleven days and the vessels leave once a month.

How Party Will Travel.

From Khartoum the railway journey across the desert to Wadi-Halfa on the second cataract of the Nile, takes thirty-six hours, and from that point there is a regular steamboat service down to Assouan, on the first cataract, and Cairo, a total water journey of 900 miles.

The time taken from Wadi-Halfa depends on the length of the stay the party will make at Abou Simbul, Phylae, Luxor and other points of interest on the banks of the River Nile. The usual passage for tourists down is about two weeks.

From the British Government the President has received a permit to kill as much game as he likes, but it is understood that he will go to Africa more in the interest of science than to kill animals for the mere sport of it. The President will have no difficulty in keeping in touch with the outer world, whether in the British or German East African protectorates.

Telegraph wires now cover the district in all directions. An expert who has made the same journey through Africa three times from the east coast to the Nile, says that the climate in the interior was healthy for white men if they only took ordinary precaution to safeguard themselves against disease.

The country teems with interest for the hunter and naturalist from the time

REPUBLICANS HAVE THE LOWER HOUSE

On Joint Ballot the State Legislature Will Be Democratic.

(Continued from First Page.)

Legislature is still in doubt. It is practically certain that the Republicans will control the lower house by a few votes, but the Democrats will retain the upper house and they insist they can thus control when the two houses meet in joint session to elect a Senator. However this may be, the majority will be only three or four and a deadlock and hot fight for the senatorship are expected.

Republicans Have House.

The Republicans are practically certain to control the House by a majority of 73 to 69. In the Senate the Democrats have 11 hold-over senators and they say they have elected 12 new senators. The Republicans have six hold-overs and admittedly have elected five new senators.

On this basis the Democrats will have 23 senators and the Republicans 11 senators. This will give the Democrats a majority of 12 in the Senate and eight in joint session.

The trouble with this estimate is that the several senatorial districts are still in doubt, as well as some legislative districts, and not until these are heard from officially will the politics of the next legislature and United States senator be known.

The six Republican Congressmen known to be elected are Bartholdt and Coudrey, in the Tenth and Twelfth (St. Louis) districts; Chas. H. Morgan in the Fifteenth, succeeding Hackney; "Pat" Murphy, to succeed Lamar in the Sixteenth; Polite Elvins, to succeed Smith in the Thirteenth; and Charles A. Crow, to succeed Russell in the Fourteenth.

George D. Reynolds is elected to the St. Louis Court of Appeals by the vote of the district which includes St. Louis and the eastern portion of Missouri. He defeats Judge Charles C. Bland. The other judges are Norton, Republican, and Goode, Democratic.

T. CARL WHITMER TO GIVE ORGAN RECITAL

Program at the Baptist Church Tomorrow Afternoon.

T. Carl Whitmer, director of the School of Music of Stephens College, will give the first of a series of six organ recitals at the Baptist church at 4:15 o'clock to-morrow afternoon.

The program includes Sonata No. 1, Mendelssohn; "It is enough," Clarence E. Marshall, baritone; prelude to Lohengrin; Marche Nuptiale, Charles Marie Widor; Melody in C, King Hall; Minuet in E flat, W. Wolstenholme; "Rolling in Foaming Billows," Haydn, by Mr. Marshall; overture to Ruy Blas, Mendelssohn.

Miss Mabel Hale will give a piano recital in the college auditorium Monday at 8 p. m.

Eugene Salisbury Returns.

Eugene Salisbury, former Tiger star, has returned to school after ten days spent in coaching the football team of the Van Buren, Ark., high school. "Gene" taught his pupils the use of the forward pass, which enabled them to defeat a heavier team by a score of 32 to 0. Jesse Williams, former pitcher for the Tiger baseball team, is teaching in the school at Van Buren.

he lands on the East African coast until he reaches Egypt. The larger steamers land their passengers at Kilindini Harbor and the passengers drive by carriage along a smooth road fringed with immense mango trees to the old Portuguese seaport of Mombassa, where the Uganda Railroad starts through East Africa to Port Florence, on Lake Victoria Nyanza, a distance of 584 miles. The temperature at Mombassa is torrid, as it is situated only four degrees from the equator, but the railroad begins to ascend directly after leaving the coast, and by the time the station of Mazeras is reached the elevation is 530 feet above sea level.

For the accommodation of the President and his party a special saloon coach, with kitchen attached, will be reserved, in addition to a saloon carriage with leather seats, which are transformed into sleeping berths at night. The whole country abounds with small game of all kinds, which can be obtained, with fresh vegetables and fruit, at every station along the line. Ice is manufactured at all the principal points of the railroad. In order to protect travelers from the heat of the noonday sun, the railroad cars are all equipped with a double roofing, and pipes are led around, so that by turning a tap in the saloon a stream of water pours down over the car on both sides and cools it off.
